

Q - Can my child start today or tomorrow?

A - We must process your child's registration paperwork, request records from previous school and review before s/he can begin. Usually it does take 3-5 school days or more depending on the district receiving all necessary records to begin so your child can be placed in the most appropriate program that meets their needs.

Q - I'm living with someone else and the utilities are in their name? How can I provide proof of residency?

A - The person you are living with can provide the utility bill as proof of residency and a note indicating you are residing with them. Or, you can go to the post office and complete a change of address card and provide a copy.

Q - I can't find my child's birth certificate?

A - The previous school can send the child's birth certificate if they have it. If they do not have a copy we will need it. We can discuss options for obtaining a missing birth certificate.

Q - Can't my child's previous school just send you a copy of their shots?

A - For accuracy we require shots directly from a doctor. They can be faxed directly from the doctor to us.

Q - What if my child doesn't have an updated physical?

A - We accept physicals within 1 calendar year. If your child's physical is out of date, please make an appointment and forward it to us upon completion. If you cannot get a physical for your child we can discuss the options available to you.

Q - I have children of different grade levels, do I need to go to each building to enroll?

A - For your convenience we have a central registration office located at the High School.
